

1Y SERIES STOOLS

This flat vertical surface mounted, swing-away stool features adjustable seat heights and is equipped with a nonskid glide for added steadiness. Available with many optional seat and backrest configurations, 1Y seating is perfect for the industrial environment, school labs, or any place seating is needed that can swing out of the way. This versatile, swing-away stool is mounted to a wall or other solid vertical surface to assure that even the most challenging workstation space can have functional seating. Swing the stool out from the wall to a work position, then swing it back when finished for efficient floor cleaning and traffic space.

STANDARD FEATURES

Seat: 13" diameter, made of 18-gauge steel with formed flange and no sharp edges, 22 3/4" from floor to top of seat in low position, 20 3/4" from wall to outside edge of seat.

Frame: Two-bar unit, 1 1/8" diameter, made of 16-gauge steel tubing.

Attaching Bracket: 2" wide, made of 7-gauge steel, spring loaded to allow stool base to contact floor only when weight is applied to the unit.

Metal Parts: Black powder-coated finish; available in other colors.

Glide: Nonskid.

Seating: Seating options change the low seat height and wall-to-outside edge of seat dimensions. See chart below.
