

AJ SERIES STOOLS

Stools in the AJ series feature 13" diameter circular seats made from 18-gauge steel and a 16" leg spread base.

Sturdy stools for every environment with a classic, four-legged design. Available with options that allow for dependable performance across many demanding environments.

STANDARD FEATURES

Seat: Round, 13" diameter, made of 18-gauge steel with formed flange and no sharp edges.

Base: 4 leg fixed height base made of 7/8" 18 ga. steel tubing with a 16" diameter.

Metal Parts: AJ Series chairs have a powder-coated finish as standard or a chrome-plated finish when specified with a C option code.

Note: Backrests are not available on these units.
