

# FLN SERIES CHAIRS

**Saddle-shaped, contoured seat with sewn seams/ 5-legged black reinforced composite base.**

FLN chairs are recommended for use in healthcare, educational, industrial and office settings.

Chairs in the FL series are manufactured using a process that allows for a natural, unencumbered expansion of the foam cushioning in the seat and backrest. In turn, this creates a noticeable increase in user

comfort and support over what is considered average. Better yet, they can be customized with different options, upholstery and performance packages.
