

GX SIT / STANDS

Each of these sit/stands feature a pneumatic seat height adjustment, a forward-tilting seat mechanism (0° - 6° angle) and a self-skinned urethane seat featuring a built-in handle and ventilation ribs.

Promoting a balanced posture by supporting the torso and hips, BioFit ergonomic sit/stands are engineered to be the solution to reducing cumulative trauma and soft tissue problems that often are associated with jobs that require extensive standing. Choose BioFit sit/stands for a safer, more productive work environment.

SEAT HEIGHT RANGES

Adj. Range	Model# Mfg. Code
GX1 SEAT HEIGHT ADJUSTMENT RANGES	
22"-29"	GX120
25"-35"	GX150
GXT SEAT HEIGHT ADJUSTMENT RANGES	
22"-29"	GXT120
