

# HCP SERIES CHAIRS

## Upper and lower back support/polished aluminum base/contoured seat with sewn seams.

HCP chairs are recommended for use in healthcare, educational, industrial, office and static control settings.

HC series chairs provide a preview of the way style and function are shaping up at BioFit. The upgraded sewn seam design of this line minimizes foam compression during manufacturing – a process that maximizes comfort over the lifecycle of the chairs. Select from a range of different components, upholstery options and performance packages.

### STANDARD FEATURES

**Backrest:** Larger ergonomic backrest with sewn seams, both lower and upper back support 18" wide x 19" high.

**Seat:** Ergonomic, four-way contoured seat with sewn seams and waterfall front, 18 1/2" wide x 17" deep x 3".

**Controls:** Standard with Task Control – Soft-touch pneumatic seat-height adjustment, fixed rearward seat tilt of 3 1/2°, backrest tilt, backrest-height adjustment.

**Base:** 5-legged fully polished cast aluminum base with 27" leg spread (26" caster to caster).

**Casters and Glides:** Models available standard with casters have an R following the model number/manufacturing code. The remaining models are standard with nickel-plated glides. Standard casters are a single-wheel ball bearing caster for hard floors; many other optional casters/glides are available.

**Fire Retardant:** Meets California Technical Bulletin 117.

**Upholstery:** A wide range of upholstery fabrics are available to meet your needs.

**Metal Parts:** HCP Series chairs have a powder-coated finish as standard or a chrome-plated finish when specified with a C option code.
