

# CXC SERIES STOOLS

## Sturdy cast aluminum base/round self-skinned urethane seat.

Choose CXC stools for top performance in a wide variety of environments including: industry, education, laboratory, clean room, anti-static and healthcare.

These stools are standard-equipped with round, 14" diameter x 1 1/2" thick, self-skinned urethane seats and soft-touch pneumatic controls. Select from four available bases and customize with performance options.

### STANDARD FEATURES

**Seat:** Round, 14" diameter x 1 1/2" thick, self-skinned urethane.

**Controls:** Soft-touch pneumatic seat-height adjustment.

**Base:** 5-legged cast aluminum base with 23" leg spread.

**Metal Parts:** CXC Series chairs have a powder-coated finish as standard or a chrome-plated finish when specified with a C option code (aluminum base has a polished top with the C option).

**Casters and Glides:** Models available standard with casters have an R following the model number/manufacturing code. The remaining models are standard with nickel-plated glides. Standard casters are a single-wheel ball bearing caster for hard floors; many other optional casters/glides are available.
